

DEBRA LYKKEMARK

Debra Lykkemark doesn't have small ideas.

So when she set her sights 29 years ago on becoming a world class caterer by producing the finest quality food, no one was surprised.

Not only has the award-winning caterer met her original goals, Debra succeeded further with the recent opening of Waterview, a glamorous Vancouver waterfront special event space. Going forward, her goals include looking for another event venue.

Rated one of the best in the world, Culinary Capers has

catered for the Torino, Vancouver and Beijing Olympics and, this year, joined forces with Nordstrom for their Vancouver flagship store opening. The company also supports charities, from art schools for kids to meals for underserved children.

"I got into this business because I felt the quality of catered food wasn't great and I could do better. That's been our driving force and it's created a culture of foodies within our company. We offer every ingredient for exceptional entertaining."

WE HAVE A PASSION FOR
CREATING GREAT EVENTS.
